

MILL MASTERS

Tube Making Machines for all Heat Exchange, Cable, Thinwall Applications

Hydraulic Tube Burst Testing Machine

BT3.5KTS Specifications:

- Tube Sizes From 0.275" to 3.375" Flat Oval Up To 1.375" Dia. Round.
- Wall Thickness Range from .004" to .075"
- Standard Burst Pressure 3500 psi,
- Mill Masters can Custom Build to Meet Your Specifications up to 20,000 psi.
- Tube Lengths up to 40"

BT3.5KTS

BT3.5KTS Features:

- Completely Hydraulic Clamping.
- No Tool Change For Different Tube Sizes.
- Operating Voltage, To Your Specification.
- Tubular Steel Frame.
- Stainless Steel Chamber.
- PLC Control.
- Completely Automatic Cycle Once Tube Is Loaded.
- Digital Read-out Provided.
- CE Compliant.
